One Day Festival

DIY Recyclable Bird Feeders

PANFEST
Pagan Festival Society

This bird feeder craft is an eco-friendly activity for anyone who wants to help out our feathered friends during this difficult time of year. If you'd like to follow along at home, getting supplies together in advance will definitely help you!

You Will Need:

- Bird seed
- A paper towel/toilet paper roll, old paper plate, pine cone, or something similar
- Butter, peanut butter, lard, crisco, suet, or something similar (something that can coat your object so the seeds will stick)
- String/twine/yarn
- Butter knife
- Bowl/plate
- Scissors
- A desire to get dirty while creating magical treats for your yard visitors
